

THE GREEN DESERT PROJECT

The largest environmental project in world history

Vegetation growth on the vast desert expanses of the Arab Peninsula shall be encouraged by providing water acquired by atmospheric water harvesting; new and relatively cheap technology of sea water desalination based on solar energy utilization; new technology of urban waste water reclamation. Soil fertility improvements will be achieved by supporting the natural processes of vegetation development, especially by the natural sequence of universal landscape components using a wide diversity of plants and animals.

MAIN TOPICS

- Water and vegetation for the recovery of the climate.
- A new Water Paradigm for urban areas.
- Urban closed water and nutrient cycles.
- The potential to create surplus freshwater from seawater with utilization of solar energy.
- Greening the desert using the holistic design science of Permaculture.
- The Australian experience of greening the desert.
- Reversing desertification using increasing livestock numbers...

Remarkable Speakers

Michal Kravčík: *Chairman - People & Water Goldman Environmental Prize*

Charlie Paton: *Director - Seawater Greenhouse St Andrews Prize for the Environment*

Marco Schmidt: *Founder - Watergy Ricardo Carmona best scientific work*

Martin Buchholz: *Founder - Watergy Ricardo Carmona best scientific work*

Peter Andrews: *CEO - NSF Best land and water management in the world*

Allan Savory: *Founder - Holistic Management On 30 million acres worldwide*

Geoff Lawton: *Director - Permaculture Restoring and reforesting in over 30 countries*

Attendees

Attendees have opportunities to participate in the Green Desert Project through a long term contract .

Attendees are chief executive officers, Vice presidents Directors, Regional directors, global heads, involved in the areas of:

Environment, Solar energy, Desalination plants, Water management, Water pump man tech,

Honorable guests

Sheikh Sultan bin Mohamed Al-Qassimi III Ruler of Sharjah

Princes and decision makers Cooperation Council for the Arab States of the Gulf

Government members Cooperation Council for the Arab States of the Gulf

Ministries experts & members Cooperation Council for the Arab States of the Gulf

Academics and universities members Cooperation Council for the Arab States of the Gulf
